KEY POINTS

- V11 has been designed for screen sizes as small as a portrait-oriented tablet
- You’ll notice the use of three dots. This is the “More Actions” menu
- Screens have been updated for accessibility and are keyboard navigable
- Menus open on click rather than hover to reduce accidental opening
- Quick link to the root directory is still the House icon
- The Level 10 Administrator Setup menu is now on the left-center of the screen
- v10 will remain up for six months after launch
- Level 10 Administrators can opt in and test out the v11 version before activating for their school. This allows time for updating existing documentation
